

# Castable and Machinable Foundry Tooling Systems

Save time, cut costs and increase productivity on patterns, models and molds

Many Ren castable materials and accessories supplied to the foundry industry are packaged in easy-to-handle containers. Among the convenient package styles are: pint-sized squeeze bottles, screw-cap tubs, pourable quarts and gallon bottles and easy-to-reseal five-gallon pails and drums.

**IMPORTANT:**

The following supercedes Buyer's documents. SELLER MAKES NO REPRESENTATION OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. No statements herein are to be construed as inducements to infringe any relevant patent. Under no circumstances shall Seller be liable for incidental, consequential or indirect damages for alleged negligence, breach of warranty, strict liability, tort or contract arising in connection with the product(s). Buyer's sole remedy and Seller's sole liability for any claims shall be Buyer's purchase price. Data and results are based on controlled or lab work and must be confirmed by Buyer by testing for its intended conditions of use. The products described herein have not been tested for, and are therefore not recommended for, uses for which prolonged contact with mucous membranes, abraded skin, or blood is intended; or for uses for which implantation within the human body is intended.
